

# Why can't I find the Top Concerns graph on my display?

Last updated Apr 04, 2016

The Top Concerns graph will only display when you are viewing data for a single school. If you are a School Master or School Administrator, it will display by default. If you are a District Master or District Administrator, you need to have a single school chosen in the **Select school** field at the top of the interface to see this graph.
